Arrangements to Take It Up Have

Been Perfected.

THE FIRST PAYMENT MADE

CONDITION OF THE PROPERTY IS MOST SATISFACTORY.

Back From the Eagle - A Bonanza Proposition Up In Eastern Oregon -Peterson Wins His Case-Decision Rendered In Favor of the Homesteader-Advance In South Swansea-Ontario a Favorite and Touches \$4.75 In the Bidding-The Mills of Mercur-The Substantial Growth Being Made By the Camp - The Annie Laurie-Body of Good Ore That Is 3716 Feet In Width - White-winged Peace Holds Sway-The Northern Light-Silver and Lead-Ore and Bullion-Mining Notes and Per-

Yesterday the officers of the Redwing Mining company signed contracts with the former owners of this Markham guich property, by the terms of which the company agreed to take up the \$20,000 bond on the mine within 128 days, and a partial payment was also made, the balance due to be paid in two more installments.

The Redwing, which is one of Bingare nedwing, which is one of Bing-ham's most promising properties, ad-joins the now immors Julia Dean, a producer of some wonderfully rich ore. For the past year the company has been engaged in the running of a long tunnel, for the thorough development For the past year the company has been engaged in the running of a long tunnel for he thorough development of the property, although good shipping ore was exposed in several places in the upper workings. This tunnel not long ago cut into the vein at a considerable vertical depth, but as the ledge was quite flat, it has been run into for a considerable distance without disclosing the hanging wall; and now, in order to make air connections, an upraise is being made, which, it is believed, will uncover the missing wall quicker than if the tunnel had been continued on in its original course, and ntinued on in its original course, and will be found on this side of pay ore will be found on this side of the vein.

President and Manager J. J. Corum of the company, who has just returned from an inspection of the mine, states that he is better satisfied with it than

at any time in its past history.

The officials of the company, as well as the stockholders, are highly elated over the fact that arrangements have been perfected for the taking up of the

BACK FROM THE EAGLE.

Oregon.

Messrs. George and Scott Crismon have returned from eastern Oregon, ver News says: where they have been for some time past directing work in the development of the Eagle mine, not far from Baker

City.

In speaking of the mine, Mr. George Crismon states that it is looking well, with a good showing of ore uncovered that will carry values of from \$15 to \$20 in gold, silver and lead, gold predominating; and Mr. Crismon states that it was the intention to have made a test run on at least 200 tons of this class of mineral at the California mill, class of mineral at the California mill, not far distant from the mine, but that the mill had been closed down on an attachment before the ore could be hauled to the works, in consequence of which nothing will re done in this line until next spring, although development of the property will be steadily prosecuted.

In referring to the La Bellevus mine and mill, about four miles from the Eagle, in which J. E. Bamberger and Hon. David Keith are heavily inter-ested, Mr. Crismon said that it was

group of mines, consisting of 12 claims, and owned by Hon. John C. Young and the Crismons of Salt Lake City. From persons who are in a position to know what they are talking about, the Dem-

A Bonanza Proposition Up In Eastern | The Substantial Growth Being Made

the present year and so rapidly has the output of the mines increased, that those familiar with its past history would scarcely believe it possible that things could change so much. There

things could change so much. There are now six mills running in the district, one completed ready for work, one that will start next month, and one that will be ready Oct. I.

The Golden Gate mill has made a very successful run, 600 tons per day being their present output. When the plant first started the extraction was about 75 per cent, and this has been steadily increased until today an average of 30 per cent is being saved. This includes the arsenical ores, as well as those that are oxidized. There is no shipment of cyanides, the refinery at the mill turning out gold bars, which are shipped as fast as they are produced, so that but little 4s left around the mill, and the shipments are small; and mill, about four miles from the Eagle, in which J. E. Bamberger and Hon. David Keith are heavily interested, Mr. Crismon said that it was understood that the new concentrating works on this property were giving excellent satisfaction, and that a high recovery of values was being recorded.

Mr. Crismon also stated that he had seen a notice in a coast mining paper that the Goldstone, at one time held under bond by Salt Lake people, had been sold to Montana mining men for \$75,000.

\$75,000.

In speaking of the Eagle and its merits, the Democrat, of Baker City, says:
One of the best mine showings in the Cable Cove district is that of the Eagle group of mines, consisting of 12 claims, and owned by Hon, John C. Young and and owned by Hon, John C. Young and time. The extent of the ground owned by the company, the size of the mag-nificent ore bodies, the uniform values found in the different parts of the mine and the good leaching qualities of the

what they are talking about, the Democrat learns that in the Imperial claim along the entire length of a 500-foot turnel there is a ledge from three and one-half to four feet wide that gives an average return of \$11 to the ton.

Much of the ore is marketable and is being shipped, giving returns of \$60 to the ton.

On the Eagle group there is fully \$.050 feet of development work done, and all in such a practicable manner that the best results are obtained.

It is understood that a price of \$100,-000 has been placed on the group, and the owners are not running after a buyer even at that big figure.

Mr. Young has spent many years developing his mines, and it seems now that be is to be rewarded handsomeity for his energy, pluck and industry. of development work has been done in each. When De Lamar held an in each.

per series of the series of the Homesteader.

Special Agent Cyrus A. Mosier, of the Land department, and George A. Smith, receiver of the local land office, rendered their joint decision yesterday in the case of Peter N. Peterson vs. E. N. C. Scott et al., deciding in favor of the horaesteader, Peterson.

This case has attracted considerable attention in mining circles, both in and out of the Tintic mining district; the question involved being one that may arise between a farmer and miner at any time.

The land in question adjoins the prosperous town of Eureka. The Smuggler holdings. After the Smuggler claimants had applied for patent and received their final receipt, Peterson filed a protest, alleging the land within his homestead was not mineral land. The hearing commenced the first of the present month, the taking of tentimony occupying three weeks.

The mining claimants were represented by J. M. Denny, L. H. Gray and the ciscion Reverded in the property about 18 months ago. his expert reported a little over \$1,000,000 in sight. It is no exaggeration to say there is at least with each mine in shape to supply another mill of 500 tons capacity, to be built at the mine in shape to supply another mill of 500 tons capacity, to be built at the mine, and it is expected that this will be done in a short time.

When the company first commenced cyaniding too fine. This was followed by grinding too coarse. Other mistakes were made, which only experience could correct. In the old dump it has been found that from \$3 to \$4 to The mining claimants were represented by J. M. Denny, L. H. Gray and E. N. C. Scott, and the farmer by E. W. Senior.

ADVANCE IN SOUTH SWANSEA.

add a revenue of about \$8,000 per history to the net profits of the mine. It has, therefore, been decided to erect a new mill of large capacity for the treatment of ore at the mine, and put the old mill to work on the tailings.

The Dalay mill has made its trial run, and the record is unprecedented. From

Ontario a Favorite and Touches \$4.75

In the Bidding On 'Change.

Some fluctuation marked the proceedings in the pit of the exchange yearings in the pit of the exchange yearings in the pit of the exchange yearings in the pit of the exchange yearing in the pit of the exchange yearing the process of any kind except the tightening of belts. A hundred tons per day are now being treated, and an extraction of 90 per cent of the ore values has been

closing at \$25 asked. Grand Central was another favorite, and touched \$5.72\footnote{1} in the bidding, Mammoth recording saies at \$1.91 and \$1.90, closing weak at \$1.87\footnote{1} bid and \$1.90 asked. Silver King was in demand at \$22, with offerings at \$25.

Omains beaded the unlisted stocks, and established quotations of \$2 cents bid and \$5 asked. South Swansea dropped a board lot at \$1.22, the lowest offering at the close being \$1.27\footnote{1}, Chings with a bid of \$1.09\footnote{1} recorded. Dexical Point was a little off in the other was firmly held, but inactive, while Swansea touched \$1.62\footnote{1} in the bidding, with offerings at \$2.80.

The transactions of the day were as follows:

Body of Good Ore That Is 371/2 Feet

In Width.

Peter Bowman, the contractor on the famous Annie Laurie mine, in Gold Mountain, was in this city after more provisions and supplies.

Mr. Bowman reports that at present he is in on the lower tunnel on the property 356 feet, and that ever since the first 100 feet he has been along the footwall of an enormous ledge of rich milling ore. Within the last 30 feet of the fare a cross-cut was made to find the hanging wall, which proved that the vein was 37½ feet wide, and the whole way through was the best kind of looking ore.

On the last of Santonian wall, which proved that the vein was 37½ feet wide, and the whole way through was the best kind of looking ore.

On the last of Santonian wall, which proved that the vein was 37½ feet wide, and the whole way through was the best kind of looking ore.

whole way through was the best and of looking ore.
On the lat of September a shipment of 12 tons will be made of the high grade ore. The shipment will run \$200 in gold and carries some silver. There are at present \$90 tons of ore on the dump that will average over \$40, but the transportation is too high to have it shipped. At present there are only five men

have the contract to build the wagon read from the red narrows, in Clear creek cannon, to the Annie Laurie mine. They are making about a quarter of a mile a day, and at that rate it will take them fully six weeks to complete the road. W. G.C. Morrison has the contract to complete the road from the Annie Laurie to the Breckinridge, which work will be completed in about one week. This road will make one of the greatest improvements on the the greatest improvements on the mountain, and it will not be long till mountain, and it will not be long the ore shipping prospects will become a common thing. The mountain has never yet had a boom, but each year it is advancing a little, and it will not be long until Cold Mountain will be one

Men Robbed and Starved By Commissioned Sharks.

Sergeant Frank C. Goodwin, Son of Judge C. C. Goodwin of Logan,
Arrives Home Weak and Wasted—
Discharged For Physical Disabilities Brought On By An Utterly
Incompetent and Criminally Negligent War Department.

Cated in recent years
the four survivors of the original gold discoverers, the other three being residents of Utah. They are Henry W.
Eigler, who resides at St. George,
Machington country, Azariah Smith of Manti, and James S. Brown, whose home is at Salt Lake.

Mr. Johnstone enlisted in the Mormon battaliton at Council Riuffs, Ia., and is known as one of the best fighters of that galfant body of men. He formerly lived at Manti, Utah, before making his home in New Mexico.

(From The Herald's Correspondents.)

Logan, Aug. 31.—Quartermaster Sergeant Frank C. Goodwin, of troop I, Torrey rough riders, arrived home last evening from Jacksonville, Fla., where he has been quartered since last June, He was discharged a short time ago on account of disability, and immediately started home. He is in a very diately started home. He is in a very weak condition, and presents a sad appearance in comparison with the way he looked when he left here on May 15 lt.st. He tells a shocking story of the disgraceful mismanagement of things connected with the army, especially the commissary and medical departments. Nearly all the men in the Torrey command, he says, are ready to die of starvation and exposure, and hardly a man among them but earnestly desires common thing. The mountain has never yet had a boom, but each year it is advancing a little, and it will not be second victim of the deadly fumes in haled white at work in the Golden Gate mill. will be one of the greatest mining camps in this state.

GOLD STRIKE IN ALASKA.

Pans Out \$20 to \$40 a Day For Each Man.

Victoria, B. C., Aug. 31.—The steamer Horsa brings the report from Alaska of a gold strike on the Hootalinga river, D. D. Lawney of San Francisco, who came out to Fort Wrangel just before the Horsa salled, says the strike ran from the Antier mine on Lion Hill.

By the same of the Horsa salled, says the strike ran from the Antier mine on Lion Hill was a gigantic thieving scheme. man among them but earnestly desires

in a formation of lime and quartz that is highly mineralized.

From the Antler mine on Lion Hill come very encouraging reports. The vein of ore is widening and the assays therefrom show a steady increase in values. Superintendent Troxier is very confident that he is on the verge of a large deposit of pay ore, and may strike it within the next week. Values from assays of ore taken from the present workings run from \$4\$ to \$5\$ a ton, mostly gold.

Will Griffith, who has returned from an examination of the Rabbit's Foot mine near Silver City, states that the reported strike in this property is grouine and that in the face of the 126-foot drift to the northeast from the bottom of the 357-foot shaft a three-foot vein is exposed showing white from and pyrites that is evidently well mineralized, and it is believed that it will also carry good copper values. Assays are being made on samples brought in by Mr. Griffith. Made built narrow gauge carts on the term of the property is grounded to the season of the property is grounded to The University of Utah comprises recuperate, where, notwithstanding the fact that the government paid 60 cents thorough collegiate courses leading to degrees in general science, liberal arts and mining and electrical engineering; they were fed on 10 cents worth of beside which a state normal school and a preparatory school are conducted under the direction of the University home, leaving him to pay his tare for faculty.

ANOTHER PAYSON PIONEER. James M. Jones Has Crossed the Divide at Last.

Divide at Last.

Payson, Aug. 31.—James M. Jones died this morning at 8 o'clock at the age of 81 years. He was born at Froem, Somersetshire, England, Jan. I, 1817: emigrated with some of the first companies from England to Canada, and then to Nauvoo with his family; wab married to Mary A. Partridge, 1842; came to Payson in 1852, where he has lived ever since, and prospered, rearing a large family of respectable citizens. His wife died at Payson, and in June, 1881, he married Mrs. Anna A. Frei.

Mr. Jones has been an honorable man all his life, and, during the last few years, administered to the sick, healing many by faith and the laying on of hands. In the time of the prophet, Joseph Smith, he was associated with the Saints, and often told of his personal adventures with Joseph and Hyrum Smith. He was nearby when they were killed and stood guard over the bodies.

Mr. Jones always desired to pass

the bodies.

Mr. Jones always desired to pass away quickly and quietly, and it was as he wished. He was taken sick suddenly Saturday morning and only lingered four days between active life and death. He deeded his property to relatives the day before and desired to be dedicated to God. Then he went pleasantly to sleep, passing quietly out of this life into another.

The funeral services will be held in the tabernacle Friday at 2 o'clock.

GASH GOVE TO.

GASH GOES TO CHICAGO. A Leading Democrat of Provo Given

a Farewell Banquet.

Provo, Aug. 31.—Hon. A. D. Gash, for many years the chairman of the Utah county Democratic committee, left the state this evening for other fields of labor. He intends to settle in Chicago and there practice his profession of law. Mr. Gash has long been a leader in the Democratic party of this county and was always highly esteemed. The best wishes of the Bar association of Provo go with him. The L. O. O. F. of this city, of which he was a high officer, being also grand master of this jurisdiction, gave him a farewell banquet last evening, at which many expressions of regret for his departure were expressed. Mr. Gash says he has high hopes for the prosperity of Democracy in Utah, and is sorry that business forces him to leave for other parts.

There Is Some Question Yet As to

Karl G. Maeser, David John, President Partridge, Reed Smoot, Susie Y. Gates and William Dusenberry, all members of the board of directors.

Impure blood is an enemy to health, may lead to a Hond's conquers this

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the California Fig Syrup Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactures by the California Fig Syrup Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALL FORMIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company -
